

# Why modern go-to-market leaders choose SalesIntel.

Quality intelligence and service you can trust.

## Why choose SalesIntel?

We help marketing, sales, and RevOps teams deliver up to a 5x improvement in pipeline efficiency by leveraging comprehensive, quality B2B account and contact data to:

### Identify and target the right accounts.

Our world-class research team verifies and validates the accuracy of our company technographics and firmographics to help define and locate accounts for your ideal customer profile.

### Know which accounts are in market.

Our account intelligence will also tell you which of those accounts is in-market right now to increase pipeline velocity!

### Source actionable contact data.

Reach your ideal buyers from our database including 20M+, ~95% accurate human-verified decision makers, then fill contact gaps using our 2k+ person research team acting as an extension of your team to provide world-class customer service.

### Populate, enrich and maintain data hygiene.

RevOps teams can Integrate and activate contact and account data whenever, wherever it's needed to drive efficient pipeline conversion.

## We've helped thousands already.

Thousands of companies have made the switch in the past five years. We've provided quality data to the industry for 15 years and only recently made it available direct to you! If you have observed a drop in quality from your current provider, odds are good it's because their "secret sauce" was SalesIntel!

## Start finding your people and building your pipeline with...

- » Unlimited credits
- » Unlimited enrichment
- » Guided transitions from your current provider
- » Quality service and support
- » Perpetual use of our data
- » Plus, a dedicated research team to help you fill the gaps

Your success is our success. We're better together.
